This allow you to drink **it** without destroying the layers.

The term latte macchiato is often used as a symbol for fashion-forward, newly urban members of the creative middle classes and for young parents in trendy urban districts.

The frothing is generally extensive, yielding significant light, "dry" foam, with a layer of liquid milk underneath, rather than the "wet" microfoam used in latte art.

Latte macchiato (Italian pronunciation: ['latte mak'kja:to]) is a coffee beverage; **the name** means stained or marked milk.

It is a play on "Espresso macchiato", which is an espresso with a drop or two of milk or cream.

In this case a glass is essential for **the layers** to be visible.

In restaurants, **the drink** is served in a tall glass and with a long straw or spoon.

Hence its derogatory sense of 'Yuppy drink' and its sarcastic use as a symbol (and accompanying drink) of processes of gentrification.

Futurologists and market researchers speak of latte macchiato mothers to refer to an economically relevant target group of consumers aiming at integrating a consciously urban lifestyle into their family lives.

Alternatively, it may be prepared as a layered drink, with **the** espresso gently poured (most gently out of a small espresso brew pitcher, over the back of a spoon) so that it forms a layer between the denser liquid milk below and the lighter foam above.

A latte macchiato **may** be prepared simply by frothing milk, generally producing generous foam, pouring it into a glass, and adding espresso.
